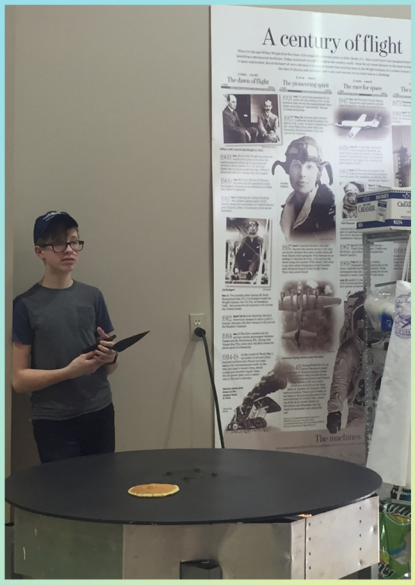
BECOME A YOUNG EAGLE

Open to all youth aged 8-17, this program involves taking the child for a 1/2 hour flight, totally at the pilot's expense.



Take a free Young Eagles flight and start your journey into the world of aviation.
For those of you who are unfamiliar with our Young Eagles Program, it is an opportunity to introduce youth ages 8-17 to flight. We provide a ground school class where we learn some of the science behind flight and follow that with a donated ride in a private plane. We have Young Eagles Rallies at Racine the second Saturday of each month, March through November, and even if the weather is inclement, we will still have ground school and still offer the chance to try out our professional grade simulator(s).

Other fun programs offered like Aviation Explorers and Young Aviators
